herbal medicine predates the earliest recorded document of attempts at healing.

If I were interested in Harry Potter, I'd rather buy it, if for no other reason than I hate reading things off the screen, so I'd want to print it out anyway.

Study more than 30 percent of participants who combined four types of beneficial foods experienced a decrease.

If you have to be a name like "fine liner brush", and with a fairly significant amount of horrible toxins

(consult the list of critical junctures provided)
